D/I USAF PROPOSED EXPLANATORY NOTE FOR SUPPLEMENT TO

NIE-64 (I)

To extend through Mid-1954 the estimates made in NIE-64 (Part I) it was found necessary to delete Conclusion 10 of NIE-64 (Part I) and to add a new conclusion, Number 11, to the Supplement. Also, significant changes were made in the conclusions and discussion related to Bloc military, economic, atomic, and political warfare capabilities. These appear in paragraphs 2, 3, 4, 5, 10, 17, 18, 25, 26, 37, 47, 48, 49, and 50 of the Supplement.

\*\*\* It is believed better to propose that changes be indicated by use of asterisk or by underlining appropriate parts of the published Supplement rather than by adding the above explanatory note.

Memorandum For The Director Of Central Intelligence

Supplement to)  
 Subject: NIE-64 (Part I): ~~Supplement to~~ Soviet Bloc  
 Capabilities Through Mid-1954

## BACKGROUND

1. This estimate was produced at the request of the NSC Senior Staff. The basic approach used in producing this estimate was to take NIE-64 (Part I), "Soviet Bloc Capabilities Through Mid-1953", and ~~make alterations necessary to make the mid-1953 estimates valid through mid-1954.~~ <sup>also revised it</sup>
2. Despite the limited time allotted for the preparation of this estimate, we believe that this estimate is basically sound and in certain respects an improvement on the mid-1953 estimate.
  - a. The inclusion of the second sentence in Conclusion #5, which was excluded from the mid-1953 estimate, gives a better balance to the estimate of the military situation in Eastern Europe.
  - b. We believe that Conclusions #10 and #11 constitute a more accurate description of Bloc political warfare capabilities.
  - c. Paragraph #16 on Soviet jamming capabilities, which was formerly in the Appendices of the mid-1953 estimate, is now raised to the stature it deserves.
  - d. Paragraphs #17 and #18 represent a substantial revision of the estimate of Soviet economic development contained in the mid-1953 estimate. They are the result of an extensive re-examination of Soviet economic data by O/RP and have been tentatively accepted by the Agency representatives.
